2. BACKGROUND AND IT INFRASTRUCTURE

2.1 Infrastructure Requirement

UIIC is a leading Public Sector General Insurance company in India expects to procure about 11,000 (Eleven Thousand) fingerprint devices for authentication of users for various applications used by the company. The number is only indicative and may not be treated as a commitment for minimum number of purchases to be made. UIIC reserves its right to Increase or decrease the quantity or add to or delete from the requirement any item on account of increase in number of users, number of offices or any change in solution implementation architecture. Such change if any will be intimated to all the bidders.

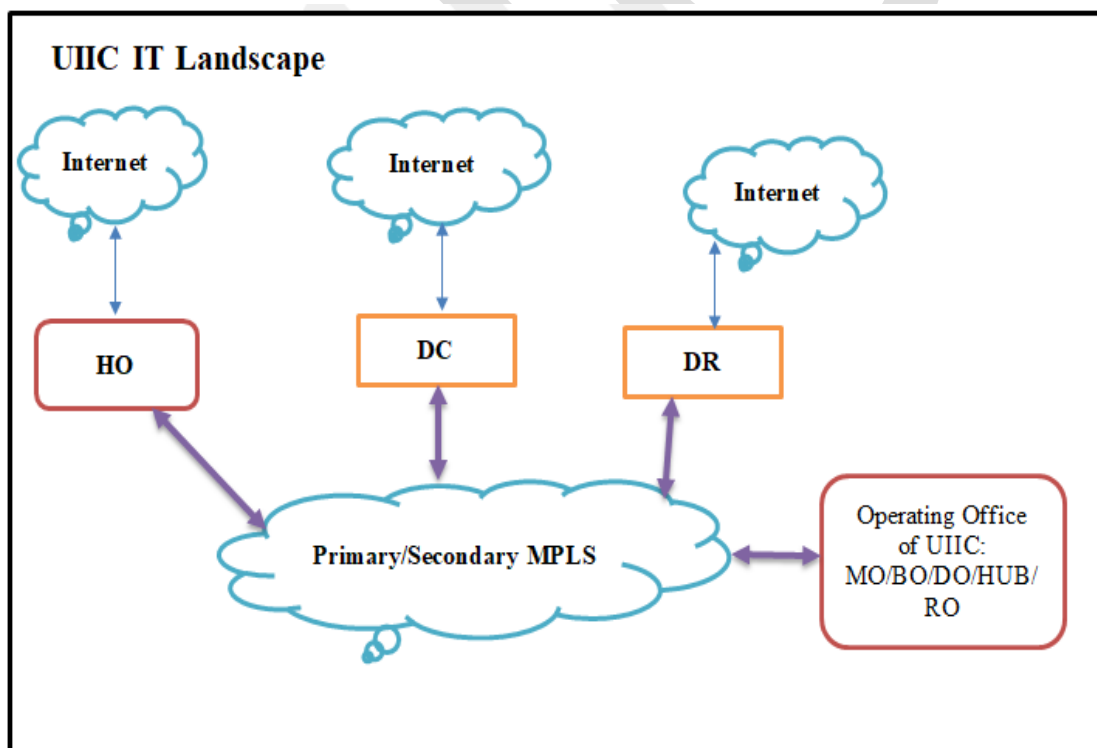

This RFP consists of two items as listed below:

Part A. Implementation of end to end Two Factor Biometric Authentication Solution.

Part B. Live finger print based biometric devices.

2.2 Current IT Infrastructure

The UIIC IT Architecture is designed around a central data center with all UIIC offices connecting to this data center over an intranet connection. The data centers and the UIIC offices have dual redundant connectivity links over MPLS/VPN.

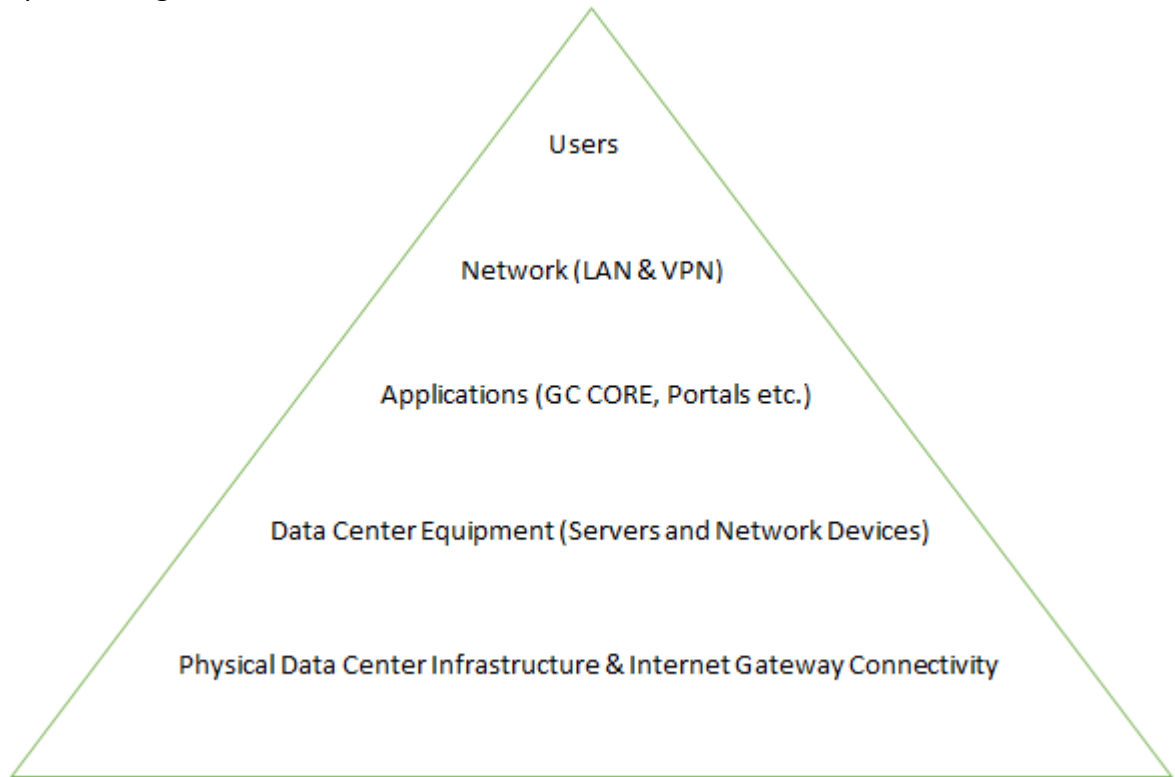

2.3 High Level Overview of the IT Landscape

UIIC IT Infrastructure is enabled by a 24x7 data center. Within the data center various servers and associated equipment are hosted that provide the processing power and storage for manning/managing application programs.

The servers in turn are used to host applications including GC CORE, SAP, HRMS, Portal, E-mail, Proxy etc. that provide business services to the users. On top of the application layer there is a network layer that makes these applications accessible from remote offices (MPLS/VPN) and finally the end user's computer.

The users accessing these applications from their desktops form the top of this logical view of the UIIC IT landscape. All the other elements are ultimately to serve the users in performing their business functions.

2.4 Existing Architecture for UIIC applications

UIIC is currently using GC CORE as Core Insurance Solution. GC-CORE is a browser based application runs on intranet. The infrastructure is hosted at UIIC's DC and DR sites. The DB for GC CORE runs on oracle with Solaris/Linux OS. Application servers are hosted in Hypervisor (with plugins) with Windows/Linux OS. This architecture is similar in Data Center and Disaster Recovery Sites.

S No	Application	OS for App Server	OS for DB Server
1	GC CORE	Windows	Oracle/Solaris
2	SAP	Windows	MSSQL/Windows
3	DMS	Windows	MSSQL/Windows
4	OBIEE	Windows	Oracle/Linux

The above applications are browser driven. Users open the application using a generic browser (IE 8 and above). Users from all offices use the same URL for accessing the application.

2.5 Bandwidth Details

1800+ UIIC Offices are connected to DC and DR through MPLS /VPN Dual Active-Active Link.

Following table specifies the bandwidth available at various UIIC offices:

Bandwidth Details:

Sl. No.	Office	Primary MPLS Bandwidth	Secondary MPLS Bandwidth
1	HO	100 Mbps	100 Mbps
2	RO/LCB	4 Mbps	4 Mbps
3	DO/HUB	2 Mbps	2 Mbps
4	BO	2 Mbps	1 Mbps
5	MO	256 Kbps	NIL

2.6 Latency

Bidder should specify the latency at the time of peak load, If 12000 users are logging in to mark their attendance between 09:57 AM to 10:02 AM, the latency must be less than 2 seconds.

- A bid determined as not substantially responsive will be rejected by UIIC and may not subsequently be made responsive by the bidder by correction.

Points will be awarded based on the following criteria:

- Eligibility cum Technical bids will be subjected to an evaluation process as detailed in [Annexure XV](#).
- Bidders who score minimum 90 out of 150 marks on the evaluation criteria as mentioned in Annexure XV will only be considered for commercial bid opening.

Final selection

Bidders who achieve overall score of 60% or above in the Eligibility cum Technical evaluation will qualify for the next stage of evaluation i.e. Commercial bid evaluation.

For the final award of the assignment, a combined evaluation shall be done by applying a weightage of 70% for eligibility cum technical score and 30% for the commercial score respectively, according to the formula for those found qualified in the technical bidding.

Combined score of bidder A = 70 (Technical score of bidder A/Highest Technical score of all qualified Bidders) + 30 (Lowest financial bid of all qualified bids/commercial bid of bidder A).

Shortlisted bidder will be ranked on the basis of the above combined score. The bidder securing highest combined score shall be recommended for award of the contract.

For example,

Three bidder namely A, B, C participated in the Bid process and their Eligibility cum Technical scores are as under:

A = 61, B = 63 and C = 62

After converting them into percentile, we get

$A = (61/63) * 100 = 96.83$

$B = (63/63) * 100 = 100$

$C = (62/63) * 100 = 98.41$

The quoted prices by bidders are as under:

A = INR 8000, B = INR 9000 and C = INR 10000

The final cost = (lowest cost quoted in price bid, in this case is INR 8000) quoted by the Bidder converted into percentile score shall be as under:

$A = (8000/8000) * 100 = 100$

$B = (8000/9000) * 100 = 89$

$C = (8000/10000) * 100 = 80$

As the weightage for technical parameter and cost are 70% and 30% respectively, the final scores shall be calculated as under.

$A = (96.83 * 0.7) + (100 * 0.3) = 97.78$

$B = (100 * 0.7) + (89 * 0.3) = 96.7$

$C = (98.41 * 0.7) + (80 * 0.3) = 92.89$

The offer of A having the highest score shall be selected.

In case of tie in final score, the bidder who has scored higher marks in eligibility cum technical evaluation will be awarded the contract.

In case the number of bidders qualifying in the eligibility cum technical evaluation stage is less than 3, then it is at UIIC's discretion, to choose the top 2 scorers or discontinue the evaluation process or re-tender.

Bidder will become ineligible if he gets disqualified in any one of the above mentioned criteria.

UIIC's decision in this regard shall be final & binding and no further discussion/interface will be held with the bidders whose bids are disqualified / rejected.

Note:

UIIC reserves the right to conduct a verification of the customer references submitted by the bidder. UIIC also reserves the right to conduct a verification of the competency and infrastructure of the bidder. UIIC may conduct all or any of these verifications to satisfy itself regarding the bidder's capability to provide the services compliant to the requirement specifications defined in this tender.
